ABOUT ME

As a graduate with a diverse background in design, I bring a blend of creativity and practicality to every project. I thrive on developing innovative designs that not only look great on paper but also translate into real-world solutions. My dedication to making a positive impact shines through my ability to communicate effectively, collaborate seamlessly, and adapt to new challenges. I'm driven by the desire to create spaces that inspire and improve the lives of those who interact with them, underpinned by my strong interpersonal and problem-solving skills.

EXPERIENCES

Freelancer

Architect (January 2022 - present)

- Designed and planning 3 stories house on 290m2 land and 1 story house on 190m2 land. Using AutoCAD and SketchUp to do the drawing, Enscape and Lumion for rendering, and Photoshop for finishing.
- Designed public street lighting for the prestigious Dirgahayu Bridge, one of IKN project by Ministry of Public Works and Public Housing. Using bamboo shoots ornament, one of the characteristic of Dayak tribe, as the main motif. Employed AutoCAD, SketchUp, Enscape and Photoshop for drawing, rendering and finishing.
- Did requirement gathering by observed client personality in order to understand the right concept for the client's house design
- Collected data and analyze site conditions as well as the client's needs and desires through interviews, taking into account the technical requirements
